NURSES UNITED AGAINST HUMAN TRAFFICKING LAUNCHES ITS LEARNING MANAGEMENT SYSTEM

Wednesday, Sep 21, 2022
1:30 pm

Nurses United Against Human Trafficking, PA (NUAHT) proudly announces the launch of its state-of-the-art, user-friendly, and highly engaging learning management system (LMS). Hot off the press, this LMS was released on Tuesday, September 20, 2022. It serves as a seamless, and easy-to-use platform to gain access to all NUAHT's unparalleled learning modules, case studies, resources, and so much more.

NUAHT is a professional organization founded by two nurses who are driven to abolish modern-day slavery. NUAHT offers unparalleled education modules, membership, consulting services for healthcare professionals and institutions needing HT protocols.

NUAHT creates a standard of care for victims of human trafficking (HT) who intersect with healthcare providers and are NOT being identified. Despite all the available trainings and talk on educating, these victims are still being missed.

The co-founders of NUAHT knew they had to act. "Much like in 80s, when we knew that HIV/AIDS was a problem, we had a large population of individuals that we had no idea how to care for or what to do, but we, as nurses, knew that we had to act. We are there again with human trafficking. NUAHT was founded on this very premise; to act and set a standard of care for this marginalized and invisible population."

In addition to educating, equipping, and empowering its members, NUAHT is directly helping survivors of HT and their families. Fifty percent of all membership fees go directly to Reflective Spaces Ministry, Corp., a 501(c)(3), who work directly with survivors of HT, sexual violence, domestic violence, and childhood adversity.
